INFORMATION REPORT INFORMATION REPORT

CENTRAL INTELLIGENCE AGENCY

This material contains information affecting the National Defense of the United States within the meaning of the Espionage Laws, Title 18, U.S.C. Secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited by law.

C=O=N=F=I=D=E=N=T=I=A=L

THIS IS UNEVALUATED INFORMATION 1. A hard surface road #9247 runs from Sibiu west northwest to Sebes and from Sebes the road continues westward toward Hungary. Another hard surface road #9247 runs from Sibiu eastward to Brasov (Orasul Stalin) via Ragaras. The same type hard surface road #9247 runs from Sibiu northward to Medias. 2. All three roads are considered to be first class highways. They are over three lanes wide. The roads have a good solid foundation and are asphalt surfaced. The roads can absorb heavy usage. 3. A loose surface all weather road #9037 runs from Sibiu northeast to Sighsoarn via Vurpar and Cornatel. The road is over two lanes in width and is able to absorb heavy usage. The road is gravel surfaced with sand and has a natural solid foundation of rock and sand. 4. A number of loose surface, dry weather dirt roads #9357 run in the vicinity of Gusterita, Hamba, Daia and Mohul. The dirt roads are over one lane in width and occasionally are capable of bearing heavy traffic. The dirt roads have a solid natural foundation of rock, sand and gravel. Farmers and villagers maintain the dirt roads.			Constitutatotatatotatat
